The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). Status						
1)🖾	Responsive to communication(s) filed on <u>02 September 2003</u> .					
2a) <u></u> □	This action is FINAL.	2b)⊠ This action is	is action is non-final.			
3)	Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.					
Disposition of Claims						
-	Claim(s) <u>2039-2068,2070-2107,2109-2116 and 5396-5403</u> is/are pending in the application.					
	4a) Of the above claim(s) is/are withdrawn from consideration.					
-	Claim(s) is/are allowed.					
	Claim(s) 2039-2068,2070-2107,2109-2116 and 5396-5403 is/are rejected.					
	☐ Claim(s) is/are objected to. ☐ Claim(s) are subject to restriction and/or election requirement.					
Application Papers						
9)☐ The specification is objected to by the Examiner.						
10)☐ The drawing(s) filed on is/are: a)☐ accepted or b)☐ objected to by the Examiner.						
, , _	Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).					
	Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).					
.11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

DETAILED ACTION

The amendment dated 9/2/03 has been entered.

Claims 2039-2068, 2070-2107, 2109-2116, and 5396-5403 are pending.

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 2039-2068, 2070-2107, 2109-2116, and 5396-5403 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over the claims of the following copending Applications: 09/840,937; 09/841,130; 09/841,131; 09/841,170; 09/841,195; 09/841,283; 09/841,285; 09/841,286; 09/841,287; 09/841,288; 09/841,291; 09/841,294; 09/841,297; 09/841,300; 09/841,303; 09/841,306; 09/841,308; 09/841,429; 09/841,431; 09/841,432; 09/841,434; 09/841,438; 09/841,439; 09/841,441; 09/841,443; 09/841,444; 09/841,445; 09/841,449; 09/841,488; 09/841,490; 09/841,495; 09/841,500; 09/841,502; 09/841,638; and 09/841,639.

" Art Unit: 3673

3. Each of these applications include an independent claim to a process which cannot be practiced without the steps of providing heat; allowing heat to transfer; and producing a mixture. Furthermore, each of these applications include dependent claims which specifically call for recirculating a portion of hydrogen; controlling the heat such that an average heating rate is less than about 1°C/day; and/or providing H₂; as called for in the independent claims in this application. It is noted that these applications do not claim the formation comprising an moisture of less than 15%. This is generally inherent in many coal or hydrocarbon formations; and thus would be an obvious modification; i.e. it would have been obvious to one of ordinary skill in the art at the time of the invention to have chosen a formation with a moisture content less than 15%, since the moisture is undesirable content in such formations, and that level of moisture content is commonplace.

This is a provisional obviousness-type double patenting rejection.

Response to Arguments

4. Applicant's arguments filed 9/2/03 have been fully considered. It is noted that applicant has not made any substantive arguments with regards to the double patenting rejections; nor has applicant made any substantive arguments refuting the inherency or obviousness of the moisture content in hydrocarbon or coal formations.
